Chapter 1 Introduction	1-1
2000 Environmental Status and Planning Report	1-1
Submitted By	1-1
EOEA #5484/8696	1-1
Hanscom Field	1-2
Hanscom Field Environmental Review Process	1-2
Role of the ESPR in Environmental Review	1-3
Environmental Review Schedule	1-3
MEPA Documentation	1-4
Organization of the Final ESPR	1-4
Summary of the Response to the MEPA Certificate	1-6
Airport Facilities and Infrastructure	1-6
Airport Activity Levels	1-7
Airport Planning / Executive Order 385	1-7
Regional Transportation Context	1-8
Ground Transportation	1-9
Noise	1-10
Air Quality	1-11
Wetlands/Wildlife/Water Quality	1-12
Cultural and Historical Resources	1-13
Sustainable Development and Environmental Management System (EMS)	1-14
Mitigation	1-14
Response to Comments	1-14
Next Steps: 2005 ESPR	1-15
Chapter 2 Airport Facilities and Infrastructure	2-1
Summary of the <i>Draft ESPR</i>	2-1
Tenant Audit Program	2-2
Tank Management Program	2-2

Chapter 3 Airport Activity Levels	3-1
Summary of the <i>Draft ESRP</i>	3-1
Characterization of Future Forecast Scenarios	3-4
Procedures for New Airline Entrants	3-5
Forecast Coordination with Logan ESRP and the New England Regional Aviation System Plan Study	3-6
Coordination with Logan Airport Forecasts	3-6
Coordination with New England Regional Aviation System Plan Forecasts	3-6
Hanscom Field Landing Fees	3-6
Nighttime Operations	3-7
Chapter 4 Airport Planning	4-1
Summary of the <i>Draft ESRP</i>	4-1
Hanscom Field Planning and Projects	4-2
Planning Initiatives and Projects in the Landside Area	4-2
Massport's Five-Year Capital Program at Hanscom Field	4-3
Third Party Development at Hanscom Field	4-3
TSA and Massport Security Policies and Projects	4-3
Executive Order 385	4-4
Local and Regional Context	4-4
Minute Man National Historical Park	4-5
Hanscom Air Force Base	4-6
Consistency with Local Plans	4-6
HATS Master Plan	4-8
Consistency with MAPC Regional Plan	4-9
Future Efforts	4-9
Chapter 5 Regional Transportation Context	5-1
Summary of the <i>Draft ESRP</i>	5-1
Hanscom's Role in the General Aviation Airport Network	5-3
GA Airport Network	5-3
Commercial Service Airport Network	5-3
Strengths and Weaknesses of Hanscom and Worcester as Commercial Reliever Airports	5-5
Viability of Hanscom as a GA Reliever Airport	5-7
Chapter 6 Ground Transportation	6-1
Summary of the <i>Draft ESRP</i>	6-1
Traffic Analysis	6-2
Traffic Study Area	6-2
Analysis of Intersection Operations	6-3
Potential Environmentally Beneficial Measures	6-10
Transportation Demand Management	6-11
Hanscom Employee Survey Results	6-11
Parking Fees	6-12
Transit Service at Hanscom Field	6-13
Hanscom Air Force Base	6-13
Hanscom Field Air Passenger Survey	6-13
Other TDM Measures	6-13
Regional Ground Transportation Documents	6-14
2005-2025 Regional Transportation Plan	6-14
Program for Mass Transit (PMT)	6-15

Transportation Improvements Plan (TIP)	6-15
Mobility in the Boston Region: The 2000 Congestion Management System Report	6-15
MAGIC Subregional Area Study: Phase I Report	6-15
Cargo Operations and Access	6-15
Chapter 7 Noise	7-1
Summary of the <i>Draft ESPR</i>	7-1
Past Noise Trends	7-2
EXP	7-2
Noise Model Differences	7-2
DNL Contours and TA Computations	7-3
SEL Distributions	7-4
Noise Workgroup Recommendations	7-5
Review of L_{max} 90 dBA Weighted Noise Contour	7-7
Operations	7-7
Noise-Sensitive Locations	7-9
Monitoring and Environmentally Beneficial Measures	7-14
Run-up Procedures	7-14
Noise and Operations Monitoring System	7-14
Chapter 8 Air Quality	8-1
Summary of the <i>Draft ESPR</i>	8-1
Review of Suggested Environmentally Beneficial Measures	8-2
Airside Operational Improvements	8-2
Clean Fuel Vehicle Program	8-4
Chapter 9 Wetlands/Wildlife/Water Resources	9-1
Summary of the Draft ESPR	9-1
National Pollutant Discharge Elimination System (NPDES) Permit	9-2
Water Quality Monitoring	9-2
Wetlands Resources	9-3
Water Resources	9-3
Vegetation Management Plan	9-7
Hartwell Forest/Jordan Conservation Area	9-7
Spill Prevention Program	9-7
Deicing Activities	9-8
Evaluation of Potential Airfield Deicing Compounds	9-8
Human Toxicity	9-9
Aquatic Toxicity	9-9
Dissolved Oxygen Effects	9-9
Chapter 10 Cultural and Historical Resources	10-1
Summary of the Draft ESPR	10-1
Minute Man National Historical Park	10-2
Soundscape Goals and Plans for the Minute Man National Historical Park	10-2
Interagency Working Group	10-3
Historic Resources in the Minute Man National Historical Park	10-4
Commitment to Transportation Demand Management	10-4
Environmental Effects in the Minute Man National Historical Park	10-6
Wheeler-Merriam House	10-7
Recreational and Conservation Lands	10-9

Battle Road Trail	10-9
Minuteman Commuter Bikeway	10-10
Narrow Gauge Rail-Trail	10-10
Concord River	10-10
Hartwell Town Forest/Jordan Conservation Area	10-10
Agricultural Resources	10-11
Potential Environmentally Beneficial Measures	10-11

Chapter 11 Sustainable Development and Environmental Management System11-1

Sustainable Development	11-1
Reduced Use of Toxic Materials at Hanscom Field	11-2
Sustainable Design Program at Hanscom Field	11-3
Sustainable Design Approaches to Rehabilitation and Expansion of Existing Facilities	11-3
Stormwater Best Management Practices	11-3
Clean Air Construction Initiative	11-3
Environmental Management Program at Hanscom Field	11-4
International Organization for Standardization (ISO)14001 Certification	11-4
Environmental Management System	11-4

Chapter 12 Mitigation12-1

Summary of the <i>Draft ESPR</i>	12-1
Current Massport Programs and Procedures	12-2
Additional Environmentally Beneficial Measures	12-3
Ground Transportation	12-3
Transportation Demand Management (TDM) Opportunities	12-7
Operational and Traffic Management Improvements	12-8
Air Quality	12-8
Airside Operational Improvements	12-8
Other Aviation Support Emission Reductions	12-8
Noise	12-9
Run-up Procedures	12-9
Noise and Operating Monitoring System	12-9
Wheeler-Merriam House	12-9

Glossary

List of Reviewers

List of Figures

1-1	Site Location	1-2*
2-1	Airport Facilities	2-2*
3-1	Hanscom Field Aircraft Operations by Market Segment and Aircraft Category - 2000	3-2
5-1	General Aviation Reliever and Commercial Service Airports Accommodating GA Activity in the Greater Boston Metropolitan Area	5-3
5-2	Principal Commercial Service Airports in New England	5-4
6-1	Afternoon Peak Hour Traffic on Route 2A (East of Hanscom Drive)	6-2
6-2	Traffic Study Area	6-2*
6-3	Hanscom Field Mode Shares	6-12
7-1	Noise Sensitive Receptors: MMNHP and Common 1995 GEIR/2000 ESPR Locations	7-2*
7-2	Distribution of Daily Departure SELs	7-5

7-3	L_{max} 90 dBA Contours: 2000 vs. 2015 High Growth Scenario	7-6*
9-1	Wetlands Location Map	9-2*
9-2	Location of Water Supplies in Bedford, Concord, Lexington and Lincoln	9-6*
10-1	MMNHP Battle Road Unit	10-4*
10-2	MMNHP North Bridge and Wayside Units	10-4*
10-3	2000 and 2015 High Growth Scenario DNL Contours	10-6*
10-4	Recreational and Conservation Lands	10-10*

List of Tables

1-1	Schedule for the Technical Review of the <i>Draft 2000 ESPR</i>	1-4
2-1	Underground and Aboveground Storage Tanks Removed/Replaced Since 1995	2-3
2-2	Existing Underground and Aboveground Storage Tanks - Hanscom Field	2-4
3-1	History of Hanscom Field Aircraft Operations (7 a.m. to 11 p.m.) - 1990 to 2001	3-2
3-2	Comparison of Actual 2000 to Forecast 2000 Aviation Activity at Hanscom Field	3-4
3-3	Summary of ESPR Forecast Aviation Activity at Hanscom Field	3-5
3-4	Nighttime Operations (11 p.m. to 7 a.m.) at Hanscom Field: 1995-2001	3-7
5-1	GA and Military Operations at GA Reliever and Commercial Service Airports in the Consolidated Boston Metropolitan Area	5-2
6-1	Intersections with More Than Ten Percent Hanscom Field Traffic	6-3
6-2	Intersection Level of Service Criteria	6-4
6-3	2002 Morning and Evening Peak Hour Level of Service	6-5
6-4	Level of Service Results for 2005 Morning Peak Hour	6-6
6-5	Level of Service Results for 2005 Evening Peak Hour	6-7
6-6	Level of Service Results for 2015 Morning Peak Hour	6-8
6-7	Level of Service Results for 2015 Evening Peak Hour	6-9
7-1	Historic Trends in EXP	7-2
7-2	Comparison of TA65 Computations, in minutes, at Noise Sensitive Receptors	7-4
7-3	Hanscom Noise Work Group Recommendations for ESPR Scope	7-6
7-4	Forecast Average Daily Operations	7-8
7-5	Year 2000 and Forecast Day-Night Sound Level, DNL, in decibels at MMNHP Sites	7-10
7-6	Year 2000 and Forecast Time Above (TA) 65 dB, in minutes, at MMNHP Sites	7-12
7-7	Year 2000 and Forecast Time Above (TA) 55 dB, in minutes, at MMNHP Sites	7-13
8-1	Number of Ground Service Equipment and Fleet Vehicles by Fuel at Hanscom Field	8-5
9-1	Wetland Description Table	9-4
9-2	Public Water Supplies in Bedford, Concord, Lexington and Lincoln	9-6
10-1	Minute Man National Historical Park Key Resources	10-5
10-2	Minute Man National Historical Park Key Resources Noise Effects	10-8
12-1	Status of Noise Abatement Recommendations of Hanscom Noise Working Group	12-4
12-2	Potential Environmentally Beneficial Measures	12-6
